Address: Zakriya Hostel, near Noor Mobile Plaza, 6th Road, Rawalpindi

Permanent Address: Colonial City, Taluka Daur, District Shaheed Benazirabad

ABOUT ME

Motivated, detail-oriented, and highly adaptable BS Computer Science student with a strong academic foundation and practical, hands-on experience in full-stack web development. Skilled in designing and developing dynamic, responsive, and user-friendly web applications using React.js, API integration, and Firebase for real-time functionality. Demonstrates strong problem-solving abilities, attention to detail, and a passion for building efficient digital solutions. Possesses a growth-oriented mindset with a commitment to continuous learning and staying updated with emerging technologies. Adept at collaborating in team environments, managing project timelines, and delivering high-quality results under tight deadlines. Seeking an opportunity to contribute technical expertise, creativity, and innovation to a forward-thinking organization where challenges drive professional and personal growth.

WORK EXPERIENCE

Currently no formal industry experience. Actively working on personal and academic projects to build practical expertise.

EDUCATION AND TRAINING

BS Computer Science (BSCS)

Iqra University, H9 Campus Islamabad (2023–Present)

Intermediate (ICS)

Dr. A.Q. Khan School & College, Islamabad (2021–2023)

Matriculation

Dr. A.Q. Khan School & College, Islamabad (2019–2021)

SKILLS

- **Technical & Soft Skills**

I. Frontend Development

- **React.js:** Experienced in building dynamic, component-based user interfaces with React hooks and state management.
 - **HTML5 & CSS3:** Skilled in designing responsive, accessible, and visually appealing web pages.
 - **JavaScript (ES6+):** Proficient in writing clean, modular, and interactive code for enhanced user experience.
-

II. Backend & Database Management

- **API Fetching:** Hands-on experience in integrating RESTful APIs for smooth frontend–backend communication.
 - **Firebase:** Familiar with Firebase Authentication, Firestore Database, and Hosting for full-stack web applications.
 - **SQL Server (Basics):** Knowledge of creating and managing databases, writing queries, and performing CRUD operations.
 - **DBMS (Database Management Systems):** Understanding of database concepts such as normalization, relationships, indexing, and data integrity for efficient data storage and retrieval.
-

III. Programming Languages

- **C++:** Strong command of syntax, logic building, and performance optimization.
 - **Object-Oriented Programming (OOP):** Skilled in implementing OOP principles like inheritance, encapsulation, and polymorphism for clean and reusable code.
 - **Data Structures & Algorithms (DSA):** Good problem-solving ability using arrays, linked lists, stacks, queues, and sorting/searching algorithms.
 - **Python (Basics):** Familiar with Python fundamentals, including data types, loops, functions, and basic database operations.
-

IV. Soft Skills

- **Effective Communication:** Able to clearly express ideas and technical concepts in both written and verbal form.
- **Team Collaboration:** Experienced in working collaboratively on projects, sharing ideas, and solving problems as part of a team.
- **Adaptability & Learning:** Quick learner who stays updated with new tools, technologies, and best practices

CERTIFICATION

1. Certificate of Event Management System
2. Academic Scholarship – Dr. A.Q. Khan School & College (2019–2023)

PROJECTS

1. **Netflix Clone** – UI replication with dynamic content
2. **Food Delivery App** – Order placement and tracking system
3. **Weather App** – Real-time weather data using API
4. **To-Do List** – Task management with CRUD operations
5. **Personal Portfolio** – Showcasing skills and projects
6. **Tic Tac Toe Game** – Interactive logic-based game
